LONDON

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

YACHT REGISTER.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

SURVEYS ON CONDITION.

NOTICE is hereby given that the Surveyors to the Society will, on application, be authorised to hold Surveys on Yachts or their Machinery, *whether classed in the Yacht Register or not*, for the purpose of reporting on their condition previous to purchase.

The written consent of the actual Owners, or their Agents, should accompany applications for such Surveys.

By order of the Committee,

A. G. DRYHURST,

Secretary.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

ESTABLISHED 1834.

YACHT REGISTER.

From 1*st May*, 1892, *to* 30*th April*, 1893.

OFFICE: 2, WHITE LION COURT, CORNHILL, LONDON.

THE YACHT REGISTER,—which is printed solely for the use of Subscribers,—contains, in addition to the Names, Class, and other useful information relating to Yachts classed by the Society, the Names, Dimensions, &c., of all Yachts, the particulars of which are known; also, in an Appendix, a List of the various Yacht Clubs and Illustrations of their respective Flags, an Illustrated List of Racing Flags of Yachts, an Index of Signal Letters, a List of Yachts which have had Names Changed, a List of Yachts arranged according to tonnage, an Alphabetical List of the Names and Addresses of Yacht Owners, and a List of Builders and Designers with the Names of Yachts built or designed by them, so far as they can be ascertained.

A Key to the Register precedes the List of Yachts.

The Rules and Regulations of the Society and Rules for the Building and Classification of Yachts are bound separately.

KEY TO SYMBOLS OF CLASSIFICATION IN YACHT REGISTER.

*A1 Character of Yachts built of Iron with thicker plating than the Society's Rules *now* require.

A1... Character of Yachts built of Iron according to the Society's Rules in force between the years 1864 and 1871.

A1... Without a numeral prefixed, character assigned to Iron Yachts already built to which the Society's Rules do not apply.

100A1 Character of Yachts built of Iron or Steel in accordance with or equal to the Society's Rules and Tables.

90A1.. Character of Yachts built of Iron or Steel in some respects deficient of the requirements of the 100A class.

A1 ... Character of Wood or Composite built Yachts of the first class, well and sufficiently equipped. The figures prefixed to the character indicate the term of years for which the Vessel is at present classed. Figures placed within parenthesis indicate the expired term of years—originally if on the first line, and on continuation or restoration if on lower lines.

A..... Without a term of years indicates that the Yacht, though not built under Survey or according to the Society's Rules, is considered worthy of the class assigned.

1 ..... The figure 1 after a character signifies that the Yacht is well and efficiently equipped, as per Table 14.

† ... Prefixed to the class of a Yacht indicates that she is also classed in the Register Book for Merchant Ships, and that the scantlings are equal to the requirements of the same.

The figures under a character denote the date when the Vessel was last Surveyed.

When the characters are omitted from the twelfth column it indicates that the Character has expired or been withdrawn from absence of Survey, or on account of non-payment of fees due in the case.

The figure 1 after the letter A, A or A indicates that the equipment is in accordance with or equal to the Rules.

A line thus — after the letter A, A or A signifies that the equipment is *not* in accordance with the Rules.

A red ring after the letter A, A or A signifies that the machinery or boilers are so far inefficient or defective as to imperil the vessel's safety ; and a black ring over the figure 1 signifies that the masts or rigging of the Yacht are so far defective as to imperil her safety.

The eleventh and twelfth Columns left blank, indicate that the Vessel has never been Classed in the Register Book. Three dots ... in Column 11 *indicate that the Vessel was at one time Classed by this Society, but that the Class has been withdrawn at owner's request. A black line with date under it in Column* 12 *indicates that, at that date, the Vessel*, from reported defects, *was not entitled to a Character in the Register Book. A red line with date under it in this Column indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.*

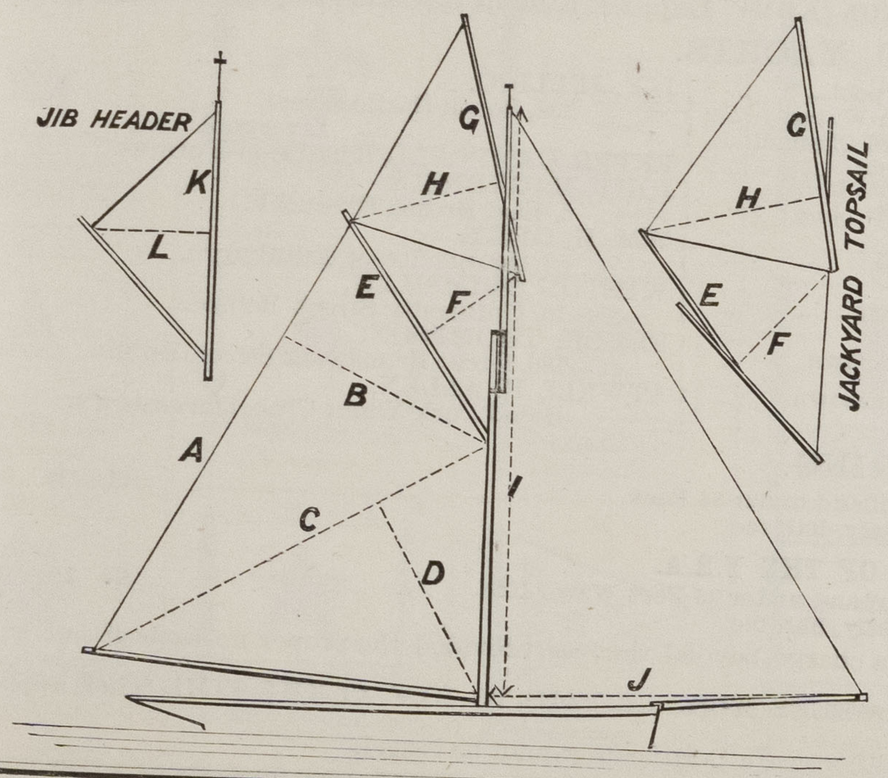
YACHT RACING ASSOCIATION.

RULE FOR ASCERTAINING RATING.

The rating of every Yacht entered to sail in a Race shall be ascertained by multiplying the sail area in square feet by the length in feet on the load water-line, and dividing the product by 6,000 (thus, $\frac{L \times S A}{6,000}$ = rating); the quotient shall be the rating, and any fraction of, or exceeding ·01 shall count as 1·, except when the rating does not exceed 10. The length shall be taken in a straight line from the fore-end to the after-end of the load water-line, provided always that if any part of the stem or stern-post, or other part of the vessel below the load water-line, project beyond the length taken as mentioned, such projection or projections shall, for the purposes of the rule, be added to the length taken as stated; and pieces of any form cut out of the stem, stern-post, or fair-line of the ridge of the counter, with the intention of shortening the load water-line, shall not be allowed for in measurement of length, if at or immediately below the load-line, nor above if within 6 inches of the water level.



TO CALCULATE THE AREAS.

Mainsail.

To find the area of the mainsail—Multiply A by B and C by D, as per illustration, and add the two products together and divide by 2.

Yard Topsail.

To find the area of the yard topsail—Multiply E by F and G by H, as per illustration, and add the two products together and divide by 2.

Jib Header.

To find the area of jib header—Multiply K by L, as per illustration, and divide the product by 2.

Head Sails.

To find the area of head sails, jib topsail, or spinnaker—Multiply I by J, as per illustration, and divide by 2.

Pole Mast Head Sails.

To find the area of head sail, for pole mast—Multiply I by J, as per illustration, and divide by 2.

SCHOONER'S AND YAWL'S SAILS.

The area of a schooner's sail or a yawl's sail would similarly be found; in the case of a yawl having a lug mizen the lacing-holes in the yard would be taken as the upper boundaries.

YACHT RACING ASSOCIATION.
